

provide data could result in program benefits being withheld or denied.

(f) Notwithstanding other provisions of the preceding paragraphs of this section, the EI, suitability of land for permanent vegetative or water cover, factors for determining the likelihood of improved water quality and adequacy of the planned practice to achieve desired objectives shall be determined by the Natural Resource Conservation Service (NRCS) or any other non-USDA source approved by NRCS, in accordance with the Field Office Technical Guide of NRCS or other guidelines deemed appropriate by the NRCS, except that no such determination by NRCS shall compel CCC to execute a contract which CCC does not believe will serve the purposes of the program established by this part.

(g) State committees, with NRCS, may develop a State evaluation process to rank acreage based on State-specific goals and objectives where such an evaluation process would further the goals of CRP. Such State committees may choose between developing a State ranking system or using the national ranking system. States' ranking processes shall be developed based on recommendations from State Technical Committees, follow national guidelines, and be approved by the Deputy Administrator.

(h) CCC may consult with the Forest Service (FS), a State forestry agency, or other organization for such assistance as is determined by CCC to be necessary for developing and implementing conservation plans which include tree planting as the appropriate practice or as a component of a practice.

(i) CCC may consult with the Cooperative State Research, Education, and Extension Service to coordinate a related information and education program as deemed appropriate to implement the Conservation Reserve Program (CRP).

(j) CCC may consult with the U.S. Fish and Wildlife Service (FWS) or State wildlife agencies for such assistance as is determined necessary by CCC to implement the CRP.

(k) The regulations governing the CRP as of February 11, 1997, shall continue to be applicable to contracts in effect as of that date. The regulations

set forth in this part as of February 12, 1997, shall be applicable to contracts executed on or after that date.

§ 1410.2 Definitions.

The following definitions shall be applicable to this part:

Agricultural commodity means any crop planted and produced by annual tilling of the soil or on an annual basis by one-trip planters or sugar cane planted or produced in a State or alfalfa and other multi year grasses and legumes in rotation as approved by the Secretary. For purposes of determining crop history, as relevant to eligibility to enroll land in the program, land shall be considered planted to an agricultural commodity during a crop year if, as determined by CCC, an action of the Secretary prevented land from being planted to the commodity during the crop year.

Alley-cropping means the practice of planting rows of trees surrounded by a strip of vegetative cover, alternated with wider strips of agricultural commodities planted in accordance with a conservation plan approved by the local conservation district and CCC.

Allotment means an acreage for a commodity allocated to a farm in accordance with the Agricultural Adjustment Act of 1938, as amended.

Alternative perennials means woody species of plants grown on certain CRP acres, including, but not limited to shrubs, bushes, and vines.

Annual rental payment means, unless the context indicates otherwise, the annual payment specified in the CRP contract which, subject to the availability of funds, is made to a participant to compensate such participant for placing eligible land in the CRP.

Applicant means a person who submits an offer to CCC to enter into a CRP contract.

Arid area means acreage located west of the 100th meridian that receives less than 25 inches of average annual precipitation.

Bid or offer means, unless the context indicates otherwise, if required by CCC, the per-acre rental payment requested by the owner or operator in such owner's or operator's request to participate in the CRP.

Conservation district means a political subdivision of a State, Native American Tribe, or territory, organized pursuant to the State or territorial soil conservation district law, or Tribal law. The subdivision may be a conservation district, soil conservation district, soil and water conservation district, resource conservation district, natural resource district, land conservation committee, or similar legally constituted body.

Conservation plan means a record of the participant's decisions, and supporting information, for treatment of a unit of land or water, and includes a schedule of operations, activities, and estimated expenditures needed to solve identified natural resource problems by devoting eligible land to permanent vegetative cover, trees, water, or other comparable measures.

Conservation priority area means areas so designated by the Deputy Administrator with actual and adverse water quality or habitat impacts related to agricultural production activities or to assist agricultural producers to comply with Federal and State environmental laws and to meet other conservation needs, such as for air quality, as determined by the Deputy Administrator.

Contour grass strip means a vegetation area that follows the contour of the land, the width of which is determined using the appropriate FOTG and which is so designated by a conservation plan developed under this part.

Contract period means the term of the contract which shall be not less than 10, nor more than 15, years.

Cost-share payment means the payment made by CCC to assist program participants in establishing the practices required in a contract.

Cropland means land defined as cropland in accordance with the provisions of part 718 of this title, except for land in terraces that are no longer capable of being cropped.

Cropped wetlands means farmed wetlands and wetlands farmed under natural conditions.

Deputy Administrator means the Deputy Administrator for Farm Programs, FSA, or a designee.

Environmental Quality Incentives Program (EQIP) means the program authorized by the Food Security Act of

1985, as amended, in which eligible persons enter into contracts with CCC to address threats to soil, water, and related natural resources and for other purposes.

Erodibility index (EI) means the factor, as calculated by NRCS, used to determine the inherent erodibility of a soil by dividing the potential average annual rate of erosion without management for each soil by the predetermined T value for the soil.

Farmed wetlands means land defined as farmed wetlands in accordance with the provisions of part 12 of this title.

Federally owned land means land owned by the Federal Government or any department, instrumentality, bureau, or agency thereof, or any corporation whose stock is wholly owned by the Federal Government.

Field means a part of a farm which is separated from the balance of the farm by permanent boundaries such as fences, roads, permanent waterways, woodlands, other similar features, or croplines, as determined by CCC.

Field Office Technical Guide (FOTG) means the official NRCS guidelines, criteria, and standards for planning and applying conservation treatments and conservation management systems. It contains detailed information on the conservation of soil, water, air, plant, and animal resources applicable to the local area for which it is prepared.

Field windbreak, shelterbelt, and living snowfence mean a vegetative barrier with a linear configuration composed of trees, shrubs, or other vegetation, as determined by CCC, which are designated as such practices in a conservation plan and which are planted for the purpose of reducing wind erosion, snow control, wildlife habitat, and energy conservation.

Filter strip means a strip or area of vegetation the purpose of which is to remove nutrients, sediment, organic matter, pesticides, and other pollutants from surface runoff and subsurface flow by deposition, absorption, plant uptake, and other processes, thereby reducing pollution and protecting surface water and subsurface water quality and of a width determined appropriate for the purpose by the applicable FOTG.

Highly erodible land (HEL) means that land determined to be HEL in accordance with the provisions of part 12 of this title.

Landlord means a person who rents or leases acreage to another person.

Local FSA office means the FSA office serving the area in which the FSA records are located for the farm or ranch.

Operator means a person who is in general control of the farming operation on the farm, as determined by CCC.

Owner means a person or entity who is determined by FSA to have sufficient legal ownership of the land, including a person who is buying the acreage under a purchase agreement; each spouse in a community property State; each spouse when spouses own property jointly and a person who has life-estate in a property.

Participant means an owner or operator or tenant who has entered into a contract.

Payment period means the 10- to 15-year contract period for which the participant receives an annual rental payment.

Permanent vegetative cover means perennial stands of approved combinations of certain grasses, legumes, forbs, and shrubs with a life span of 10 or more years, or trees.

Permanent wildlife habitat means a permanent vegetative cover with the specific purpose of providing habitat, food, or cover for wildlife and protecting other environmental concerns.

Practice means a conservation, wildlife habitat, or water quality measure with appropriate operations and management as agreed to in the conservation plan to accomplish the desired program objectives according to CRP and NRCS standards and specifications as a part of a conservation management system.

Predominantly highly erodible field means that land defined has a predominantly highly field in accordance with the provisions of part 12 of this title.

Quota means the pounds of tobacco or peanuts or other commodity allocated to a farm for commodity support purposes or control pursuant to the terms of the Agricultural Adjustment Act of 1938, as amended.

Riparian buffer means a strip or area of vegetation of a width determined appropriate by the applicable FOTG the purpose of which is to remove nutrients, sediment, organic matter, pesticides, and other pollutants from surface runoff and subsurface flow by deposition, absorption, plant uptake, and other processes, thereby reducing pollution and protecting surface water and subsurface water quality which are also intended to provide shade to reduce water temperature for improved habitat for aquatic organisms and supply large woody debris for aquatic organisms and habitat for wildlife.

Soil loss tolerance (T) means the maximum average annual erosion rate specified in the FOTG that will not adversely impact the long term productivity of the soil.

State Technical Committee means that committee established pursuant to 16 U.S.C. 3861 to provide information, analysis, and recommendations to the U.S. Department of Agriculture.

State water quality priority areas means any area so designated by the State committee and NRCS, in consultation with the State Technical Committee where agricultural nonpoint source pollutants or agricultural point source pollutants contribute or create the potential for failure to meet applicable water quality standards or the goals and requirements of Federal or State water quality laws. These areas may include areas designated under section 319 of the Federal Water Pollution Control Act (33 U.S.C. 1329) as water quality protection areas, sole source aquifers or other designated areas that result from agricultural nonpoint sources of pollution. Acreage in these areas may be determined eligible as conservation priority areas.

Technical assistance means the assistance provided in connection with the CRP to owners or operators by NRCS, FS, or another source as approved by the NRCS or FS, as appropriate, in classifying cropland, developing conservation plans, determining the eligibility of land, and implementing and certifying practices, and forestry issues.

Water bank program (WBP) means the program authorized by the Water Bank

Act of 1970, as amended, in which eligible persons enter into 10-year agreements to preserve, restore, and improve wetlands.

Water cover means flooding of land by water either to develop or restore shallow water areas for wildlife or wetlands, or as a result of a natural disaster.

Wellhead protection area means the area designated by the appropriate State agency with an Environmental Protection Agency approved Wellhead Protection Program for water being drawn for public use, as defined for public use by the Safe Drinking Water Act, as amended.

Wetland means land defined as wetland in accordance with provisions of part 12 of this title.

Wetlands farmed under natural conditions means land defined as wetlands farmed under natural conditions in accordance with provisions of part 12 of this title.

Wetlands Reserve Program (WRP) means the program authorized by the Food Security Act of 1985, as amended, in which eligible persons enter into long-term agreements to restore and protect wetlands.

§ 1410.3 General description.

(a) Under the CRP, CCC will enter into contracts with eligible participants to convert eligible land to a conserving use for a period of time of not less than 10 nor more than 15 years in return for financial and technical assistance.

(b) A conservation plan for eligible acreage must be obtained by a participant which must be approved by the conservation district in which the lands are located unless the conservation district declines to review the plan in which case NRCS may take such further action as is needed to account for lack of such review.

(c) The objectives of the CRP are to cost-effectively reduce water and wind erosion, protect the Nation's long-term capability to produce food and fiber, reduce sedimentation, improve water quality, create and enhance wildlife habitat, and other objectives including encouraging more permanent conservation practices and tree planting.

(d) Except as otherwise provided, a participant may, in addition to any payment under this part, receive cost-share assistance, rental or easement payments, or tax benefits from a State, subdivision of such State, or a private organization in return for enrolling lands in CRP. However, a participant may not receive or retain CRP cost-share assistance if other Federal cost-share assistance is provided for such acreage under any other provision of law, as determined by the Deputy Administrator. Further, under no circumstances may the cost-share payments received under this part, or otherwise, exceed the cost of the practice, as determined by CCC.

§ 1410.4 Maximum county acreage.

The maximum acreage which may be placed in the CRP and the WRP may not exceed 25 percent of the total cropland in the county of which no more than 10 percent of the cropland in the county may be subject, in the aggregate, to a CRP or WRP easement, unless CCC determines that such action would not adversely affect the local economy of the county. This restriction on participation shall be in addition to any other restriction imposed by law.

§ 1410.5 Eligible persons.

(a) In order to be eligible to enter into a CRP contract in accordance with this part, a person must be an owner, operator, or tenant of eligible land and:

(1) If an operator of eligible land, seeking to participate without the owner, must have operated such land for at least 12 months prior to the close of the applicable signup period and must provide satisfactory evidence that such operator will be in control of such eligible land for the full term of the CRP contract period;

(2) If an owner of eligible land, must have owned such land for at least 12 months prior to the close of the applicable signup period, unless:

(i) The new owner acquired such land by will or succession as a result of the death of the previous owner;

(ii) The only ownership change in the 12 month period occurred due to foreclosure on the land and the owner of
